

Classification Robeco funds

The Robeco funds classified by Sustainalytics in late 2009 can be found here. This list will be extended further in the course of 2010 to include non-Robeco funds and institutional Robeco funds. Index funds and structured products with for instance a Transtrend program have not been classified. Neither have funds held by Robeco's subsidiary institutions that do not yet share Robeco's exclusion policy been classified.
